### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. R. Main, esq., on 1/30/2004.

The application has been amended as follows:

Cancel claims 6 and 7.

This amendment is made in order to eliminate potential new matter rejection, caused by introduction new elements, such as "a first chuck" and "a second chuck" in the claim 6, which is not supported by the instant disclosure.

In the abstract

Delete the first sentence "A method for cleaning a closed-end cartridge filter begins by mounting a spindle assembly to one end of a cartridge filter."

This amendment is made in order to better reflect the claimed invention, which is related to a spin-cleaning **system**.

### *Response to Applicant's amendment*

2. All previous objections and rejections have been overcome by Applicant's amendment, filed 01/06/2004 and the said objections and rejections are, therefore, withdrawn.

***Allowable claims***

3. Claims 2-4 are allowable over the prior art of record.

***Reasons for Allowance***

4. The following is an examiner's statement of reasons for allowance:

Allowable subject matter was indicated in the previous Office Action, dated 08/19/2003. Applicant has amended the claims to introduce the combination of structural limitations of claimed system, which is not anticipated or suggested fairly by any of the prior art references. Therefore, claims 2-4 are allowed over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
